Date: Monday, 4 April 2016 9:30:07 AM

Dear Greg

I asked the Uniform Committee to consider this and we have now updated the list of standard articles of clothing in accordance with the changes put forward by the UFU below.

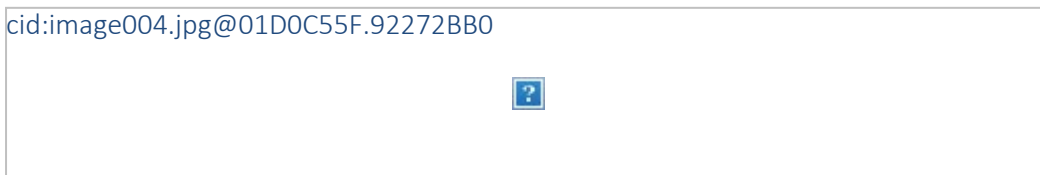

Please don't hesitate to contact me if you need any further information in relation to this matter.

Regards

Mark Brown AFSM

Subject: ACT Fire Brigade Uniform issue record December 2015 UFU tracked changes

Dear Mr Brown.

I refer to our ongoing discussions concerning the issue list of standard articles of clothing.

We have reviewed the list that you provided to us, and have made tracked changes to the document which is attached. The nature of the changes and the rationale for them is as follows.

- We have increased the number of Structural Gloves, Wildland gloves and Structural Flash hoods from 2 to 3. The basis of this is that firefighters are issued with three sets of structural gear, which if contaminated are required to be laundered. If structural gear is contaminated, so too will be the gloves. The change is suggested so that there are

adequate sets of gloves and flash hoods to allow for cleaning of those items at the same time as the structural gear.

- We have added to the list 3 neck flaps for the same reason as set out above.
- We have added the Level 1 Wildland jacket as it is currently included on the list in the TRK, and we understand that to be agreed.

Subject to the above, we consider that we are able to agree to the list. I request that you provide us with your response to this soon, so that we can formalise our agreement and ensure that it is properly communicated to all concerned.

I look forward to your reply.

Regards

Greg McConville
